On 21.05.2014, in occasion of the Day of fire protection in Macedonia - May 20, in Old Nagoricane (in Kumanovo) was held a tactical-demonstrative drill entitled

STARO NAGORICANE 2014

BRIEF SCENARIO:

The exercise is organized by:

- ▶ Fire Protection Union of Macedonia
- ▶ Government of the Republic of Macedonia - Directorate for Protection and Rescue
- ▶ Municipality of Old Nagoricane
- ▶ Municipal Fire Protection Union of Kumanovo
- ▶ TPPE Kumanovo

Address to the participants and guests of the exercise by :

- The Mayor of Old Nagoricane
- President of the Fire Union of Macedonia (FPUM)

Assignment of Appreciation by FPUM

With the first tactical-demonstrative drill you will be shown the situation created a fire in the building of the primary school " Svetozar Markovik" in the building in front of us .

In fact , today at 10:30 pm a fire was caused by faulty electrical wiring on the first floor .

At the time of causing the fire, a total of 91 students aged 6-14 years, divided into 8 classrooms, took place in regular school classes.

Due to the relatively long development of fire that covers a larger area of the floor, furniture, inventory, carpentry, paper and other stuff, are in fire. With all the space in the lobby of the ground floor to the roof is filled with thick smoke.

The burnt area has evolved relatively high temperature which leads in rapid spread of fire, endangering the safety of students, with its tendency to spread quickly around the facility.

A group of students and a staff of seven people were trapped in the fire and not able to be safely evacuated through internal corridors and stairs at school.

The fire is first noticed by servant in school and he immediately informs territorial fire brigade Kumanovo by phone number 193.

(Alarm - buzzer)

(The exercise begins)

The staff in the school and firemen are executing:

- ▶ Evacuation of students and staff from the school to a safe place
- ▶ Saving the "hostage" students and staff from the first floor through the external opening of the school building
- ▶ locating and taking down the fire

Tactical appearance for evacuation and rescue of endangered persons, and taking down the fire, are divided in three operational sectors, including:

The first operating sector involves evacuation of students and staff through planned exits for evacuation in the school on the north side of the building.

The evacuation of vulnerable students, teachers and technical staff perform according to plan evacuation of school "Svetozar Markovik" by school staff.

The evacuation is carried out through internal communications so that the first will be evacuated students and staff from the ground, and then from the higher parts of the school building.

The second operating sector involves rescuing endangered persons in the first floor with the use of rescue mattress.

Saving of the endangered people which are trapped by the fire is made by using the air mattress for rescue from heights whose area is 42 square meters.

The mattress is placed on the south side of the building, on the appropriate distance required for the safe rescue of endangered persons.

The third operating sector will perform taking down the fire.

Taking down the fire is done through an internal attack from the north and south side of the school building, with two (2) fire trucks .

A group of lean territorial fire Kumanovo unit, equipped with isolation devices for protection of respiratory organs, exercises direct localization and extinguishing the fire inside the building, while

Volunteer fire unit DPD "Kozjak" Old Nagoricane acts on the south side of the building, where with the help of scale through window intervene with a jet of water on the first floor.

(The sign given by the head of the drill exercise is completed it is published)

During the preparation for the rest of the exercise, volunteers DPD Pero Cicak - Kumanovo (under 18 years), are demonstrating fire taking down with handheld devices of all kinds.

Next is the performance of demonstrative tactical drill for rescue people in terms of accident.

In spite the driver 2 more people are present.

Due to mechanical shocks in the car accident is largely deformed, where occupants sustained injuries and are unable to leave the vehicle, therefore it is requested assistance from territorial unit PP Kumanovo and teams to indicate emergency care.

Territorial AF unit Kumanovo , after reconnaissance and assessment of the situation, starting with cutting the sheet metal body of the vehicle for liberation and extraction of the injured persons.

Teams for rendering first aid to the Red Cross and Ambulance from Kumanovo assist to the injured persons.

A person with serious bodily injury transferred to the Clinical Center in Skopje by helicopter MIS.

It declares that the drill is over!

Followed by an analysis of the exercise by the organizers and involved persons.
